QUALITY INDUSTRIAL EQUIPMENT

Lock & Load - Ready to Go

The Alemlube L40040PA diesel fuel storage & dispensing kit with lockable lid consists of a heavy duty locally designed and manufactured polyethylene 400 litre tank and the Italian Piusi 52000A dispensing kit. The dispensing kit includes a 12V diesel fuel pump with 4 metres of antistatic fuel delivery hose, 2 metres of battery cable with clips, a stainless steel & brass fuel filter and an automatic nozzle fitting a built in nozzle holster. The lockable lid with 4-point locking system ensures pump, nozzle and stored fuel security as well as protection from foreign particle contamination and the elements.

Ideal for carrying in the back of a ute or in a service vehicle, the L40040PA is easily moved from one location to another (when empty) and provides a convenient on demand system for refuelling and diesel fuel transfer wherever the need arises. Fully assembled, operational and ready to put to work, this diesel fuel storage & dispensing kit is a must for all trades and industries.

The blue finish is a ferric oxide surface coating which resists chip build up on the cutting edge, reducing frictional drag, and therefore reducing heat generated. It greatly increases drilling life and ability, especially in ferrous materials such as steel, stainless steels, high tensile steel, alloy and tool steel.
