SP Construction Series 13HP Diesel Generator

Easy to start, strong, sturdy and durable, The SP Construction Series Diesel Generator tops similar products on the market. The generator adopts a dual-layer shock absorption structure which minimizes vibration and enables it to run more smoothly and steadily, thus extending service life. The engine control and electrical units include multi-function instrument panels that digitally display real-time voltage, frequency and service hours.

LATEST TECHNOLOGY

Joining any two SP Inverter Generators in parallel connection will ensure you get the full combined rated power output when you need it most.

Similar products on the market may only output a fraction of their combined rated power when connected together in parallel, making the SP Inverter Generator range the market leaders and the most technologically advanced generators available today.

GET DOUBLE THE POWER!

1600w + 1600w = 3200w
